ADC CONSULTING
software is human business

Fields of application release 4.2 - 5.0 (RB)

- ? Development environment, programming of update programs and modules
- ? Dialog development
- ? Data dictionary
- ? User maintenance

Fields of application release 2.2 – 4.6c (BC)

- ? Development environment, programming of update programs and modules, RFC
- ? Dialog development
- ? Complete data dictionary
- ? Transport system
- ? Customizing
- ? Abap objects
- ? Smartforms
- ? LSMW
- ? Idocs
- ? BW

Customer	Rechenzentrum Trebur
Industry	**Trade Industrie**
Period	**1991 – 1992**
Place	**Groß-Gerau, Germany**
Release	**SAP R/2 4.4**
Position	**Junior developer**

RB, BC

- ? Complete basis support incl. release upgrades for a multi client system
- ? Tuning of existing reports and programs
- ? Processing of Year-End-Closing and reorganization of documents
- ? Connecting customer specific databases to SAP

RV, SD

- ? Modification within the LVS-System in connection with RV
- ? Development of customer specific evaluation reports

Customer	Gesellschaft für technische Zusammenarbeit (GTZ)
Industry	**Consulting**
Period	**1992**
Place	**Eschborn, Germany**
Release	**SAP R/2 4.3**
Position	**Junior developer**

RB, BC

- ? Complete basis support for a multi client system

RM-MAT, MM

- ? Modification within the purchasing application
- ? Development of customer specific evaluation reports

Customer	KHD AG
Industry	**Mechanical engineering**
Period	**1992-1993**
Place	**Cologne, Germany**
Release	**SAP R/2 5.0**
Position	**Developer**

RB, BC

- ? Connecting customer specific databases to SAP

RM-MAT, MM

- ? Adjustments to the functional MM-Part "Vendor evaluation" and fixing the interface problems between RM-MAT, RM-QSS and RK
- ? Development of customer specific evaluation reports for the "Vendor evaluation"-Part
- ? Employee training regarding the "Vendor evaluation"-Part

Customer	Stadtwerke Hannover
Industry	**Public utilities**
Period	**1993**
Place	**Hannover, Germany**
Release	**SAP R/2 4.6**
Position	**Developer**

RB, BC

- ? Complete basis support incl. release upgrades for a multi client system
- ? Tuning of existing reports and programs
- ? Processing of Year-End-Closing, Month-End-Closing and reorganization of documents
- ? Connecting customer specific databases to SAP

RM-MAT, MM

- ? Modification within the purchasing application incl. purchase order print program
- ? Development of customer specific evaluation reports

Customer	Elida Gibbs Ltd.
Industry	**Chemical industry**
Period	**06.1994**
Place	**London, Great Britain**
Release	**SAP R/3 3.0**
Position	**Developer**

SD

- ? Concept, Design and development of customer specific evaluation reports

Customer	Eastman Chemicals Ltd.
Industry	**Chemical industry**
Period	**01.1998**
Place	**Kingsport, USA**
Release	**SAP R/2 6.0**
Position	**Developer**

RM-PPS, PP

- ? Modification of the MRP-Part to assign the stock and customer orders with the control of customer specific customizing tables

Customer	SAP AG
	Adjustment of the SAP Standard system with the argentine legislation in order to get a new IS solution
Industry	**Software builder**
Period	**04.1994 – 06.1995**
Place	**Walldorf, Barcelona, Madrid**
Release	**SAP R/3 3.0 – 3.1**
Position	**Developer**

BC

- ? Dialog and batch development
- ? Tuning of transactions and evaluation reports
- ? Development of SAPscript formulars

FI

- ? Concept, design and realization of the new functionalities needed for the argentine specifications
- ? Adjustment of the company code/GL account/customer and vendor master data to handle multiple withholding taxes and applying new fields and checks to the master data
- ? Adding a new segment (table) to the customer and vendor master data for the withholding tax information
- ? Adjustment of the document data process to handle multiple withloding taxes and applying new field and checks to the document data
- ? Adding new fields and checks to the processing screen for CPD data (one-time vendor/customer)
- ? Adjustment of the batch input, interface and reorganization reports for the master and document data
- ? Adjustment of the payment program concerning the withholding tax functionality
- ? Development of evaluation reports and SAPscript formulars for invoices, debit/credit memos, withholding taxes etc.

MM

- ? Concept, design and realization of the new functionalities needed for the argentine specifications
- ? Adjustment of the MM-Invoicing concerning the withholding tax functionality and adding new fields and checks to the application
- ? Adjustment within the warehouse management and material valuation
- ? Development of evaluation reports

SD

- ? Concept, design and development of evaluation reports

Customer	SAP AG
	IBU/Retail CP/AFS
Industry	**Software builder**
Period	**01.1998 – 07.2002**
Place	**Munich, Germany**
Release	**SAP R/3 3.1 – 4.6c**
Position	**Developer**

CO-PC

- ? Concept, design and realization of the adjustments needed for the IS-AFS
- ? Adjustment of the product costing to handle the costing on valuation type level including standard costing run and online costing
- ? Development of the multiple bom explosion within the AFS
- ? Adjustment of the additive costs to handle the costs on valuation type level for the product costing
- ? Costs planning, settlement, variance calculation and "work in process" calculation – Adjustment of the determination for PP-Orders on valuation type level for these processes
- ? Adjustment of standard reports

CO-PA

- ? Adding of new AFS characteristic into the profitability analysis
- ? Adjustment of the CO-PA interface while settlement of PP-Orders

Customer	EPCOS AG
Industry	**Electronic components**
Period	**05.2000 – 02.2001**
Place	**Heidenheim, Germany**
Release	**SAP R/3 4.6b**
Position	**Team lead/Developer**

Across the project

- ? "Team lead" function for the development team
  - o Evaluation of new development requests with the Users, Consultants
  - o Evaluation of the development effort from the specification
  - o Controlling of development team to keep in-time
  - o Support to development team for questions, problems …

MM

- ? Development of customer specific reports using the ALV
- ? Development of a function to automatically determine the production version in the material master with over one million combinations within the standard field (4 char)
- ? Evaluation of the class system

PP

- ? Development of a SAPscript to print bom DIN depending
- ? Cost analysis for new customer requirements

WM

- ? Development of customer specifiy report using the ALV

Customer	Schott AG
Industry	**Glass-processing industry**
Period	**03.2001 – 09.2001**
Place	**Mainz, Germany**
Release	**SAP R/3 4.6c**
Position	**Team lead/Developer**

Across the project

- ? "Team lead" function for the development team
  - o Evaluation of new development requests with the Users, Consultants
  - o Evaluation of the development effort from the specification
  - o Controlling of development team to keep in-time
  - o Support to development team for questions, problems …

PP

- ? Conception and development of a dialog transaction to post goods movement to the PI-Order and to maintain batch characteristics within the transaction

QM

- ? Development of a non-process dependent inspection point valuation from the above described transaction
- ? Development of a function to calculate characteristic values DIN dependent
- ? Development to automatically generate batches from inspection point valuation including the take over the characteristics
- ? Development of a report to recalculate – using specific algorithms – characteristic values and to restore them on the database
- ? Development of a report to copy inspection points within a inspection lot. The advantage was to create the inspection point only once in a inspection operation and then it was copied per job to the other relevant operations.
- ? Development of new SAPscript formulars
- ? Development of a interface between Excel -> SAP

Customer	Schering AG
Industry	**Chemical industry**
Period	**10.2001 – 01.2002**
Place	**Berlin, Lille (France)**
Release	**SAP R/3 4.6c**
Position	**Developer**

Across the project

- ? "Team lead" function for the development team
  - o Evaluation of new development requests with the Users, Consultants
  - o Evaluation of the development effort from the specification
  - o Controlling of development team to keep in-time
  - o Support to development team for questions, problems …

FI

- ? Development of a interface to take over vendor master data, open items, travel expenses and invoices
- ? Development of SAPscript formular to print dunning

MM

- ? Development of a interface to take over stock values

SD

- ? Development of evaluation reports for SD documents

Customer	Schering AG
Industry	**Chemical industry**
Period	**02.2002 – 05.2002**
Place	**Berlin, Mexico, Bogotá (Columbia)**
Release	**SAP R/3 4.6c**
Position	**Team lead/Developer**

Across the project

- ? "Team lead" function for the development team
  - o Evaluation of new development requests with the Users, Consultants
  - o Evaluation of the development effort from the specification
  - o Controlling of development team to keep in-time
  - o Support to development team for questions, problems …

CO

- ? Tuning and adjustment of several customer specific evaluation reports

MM

- ? Development of a new SAPscript formular for order printing

Customer	EPCOS AG
Industry	**Electronic components**
Period	**09.2002 – 05.2003**
Place	**Deutschlandsberg (Austria)**
Release	**SAP R/3 4.6b**
Position	**Team lead/Developer**

Across the project

? "Team lead" function for the development team
- o Evaluation of new development requests with the Users, Consultants
- o Evaluation of the development effort from the specification
- o Controlling of development team to keep in-time
- o Support to development team for questions, problems …

PP

? Conceptional design and development of the dialog transaction "Batchclassification while GI postings"

The transaction is used to make processes easier for the user when posting gross incomes and creating new batches. The transaction supported the following functions:

- o Copying classification data from a reference batch to the new ones
- o Applying new values to specific (defined by customizing) characteristics
- o Creating batch splits for specific characteristics (defined by customizing)
- o The functionality of maintenance the characteristic values was like in standard transactions done
- o The following actions have been processed while posting :
  - ? Create batches with characteristics
  - ? Post gross income to production order
  - ? Set deletion flag for reference batch

Customer	Triumph Deutschland GmbH
Industry	**Apparel industry (AFS)**
Period	**01.2003 – 08.2003**
Place	**Munich**
Release	**SAP R/3 4.6c**
Position	**Trainer/Developer**

BC

? Training the developers on customer side within the ABAP-courses to get to ABAP developers (training language was english)

PP

? Developing new functions within the production order in order to be able to handle grid dependent routing data (new customer function within the AFS system).
